SolanaProfits.ai: The Latest in A.I. Application Built For Solana Alt-Coin Season

Introduction:

SolanaProfits Tool was built by accident as a necessity to market research alt-coins in the Solana Blockchain in seconds. It's a completely new technology that utilizes **A.I. Open Source** codes, **Solana's Blockchain directly**, and an experienced Alt-Coin analyst.

The Story:

S.P.A.I. Tool was built so the analyst can simply copy and paste a Solana Alt-Coin contract address and have a **"Yes"**, **"No"**, or **"Maybe"** response in under 5 seconds on whether to purchase that Token.

Although the analyst has extensive experience in *Ethereum's Alt-Coin season in 2018*, and *Binance Smart Chain Alt-Coin season in 2021*, the level of research on buying alt-coins still took several hours per token before a decision was reached.

This technology took purchasing decisions **from hours, to just seconds**.

Application:

After realizing that the majority of crypto beginners continue to participate in tokens that plummet in value or even "rug-pull", this technology helps you avoid that. You will **instantly** have the same ability as the analyst to make purchasing decisions on Alt-Coins!

Vision, Mission, Goals

VISION

To replace information overload with direct and relevant decision-making metrics for the Solana Alt-Coin Season.

MISSION

To make the Solana Alt-Coin Season as **predictably profitable** and easy to participate in as possible, *without* sacrificing any time on research. Every important metric is analyzed and **results provided in seconds** for anyone to make an informed decision instantly.

GOALS

To become the most widely adopted A.I. Technology for Alt-Coin Purchasing decisions. To have an active open-chat community of 1,000,000+ SPAI members sharing tokens they "researched" using the tool.

What is SolanaProfits.ai?

Description

SolanaProfits.ai is an ecosystem that includes; a breakthrough in A.I. Application in the Blockchain, SPAI Token to fuel the use of the technology, and a community-driven hub to monitor opportunities in the market.

Pre-Launch SPAI Token Buyers will also have a unique staking rewards opportunity called - **SPAI Rewards**.

S.P.A.I. Token

What is it?

SPAI Token is the fuel to using SPAI Tool. It is naturally going to launch on the Solana Blockchain.

During the Pre-Launch, you can get SPAI Token exclusively on solanaprofits.ai. The pre-launch stage grants you SPAI Rewards as a bonus (*discussed on next page*).

At the end of the Pre-Launch Stage on 28 June 2025, SPAI Tool will be integrated into the dashboard and the pricing model of the Tool will change to a "per address" model.

During the Pre-Launch, purchasing SPAI Tool grants you 100 credits to using the tool.

That means you can input 100 contract addresses to get feedback on whether to purchase the token or not.

This is at **just \$4.97 per input** and it's to get as many testimonials as possible. It will **retail between \$27-\$47 per input on the launch**.

You will also get the tool for free rather than paying the launch price of \$1,247.

The market is huge with over **9 Million daily active users** on the Solana Blockchain.

80% of revenue is distributed according to the number of tokens you have acquired during the Pre-Launch Stage. This is **SPAI Rewards**.

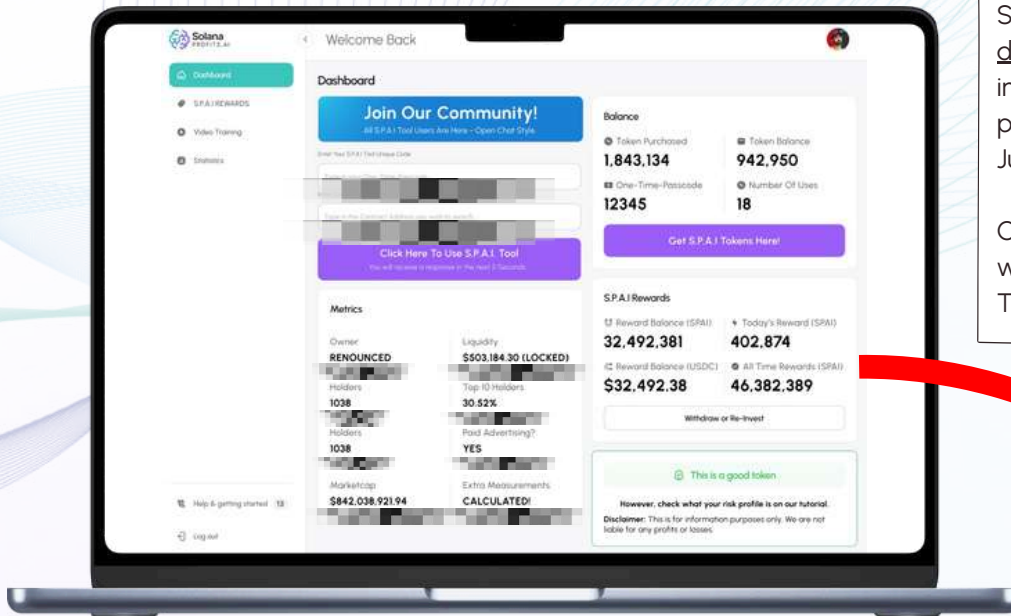

The potential of passive income is extremely high, with a possibility to secure upwards of 50%+ per Month just based on the trajectory of the Solana Alt-Coin space and current number of pre-launch registrants!

$$\begin{array}{c} \text{S.P.A.I.} \\ \text{TOKEN} \end{array} = \begin{array}{c} \text{S.P.A.I.} \\ \text{TOOL} \end{array} + \begin{array}{c} \text{S.P.A.I.} \\ \text{REWARDS} \end{array}$$

S.P.A.I. Rewards

This is for illustration purposes only...

New dashboard after launch

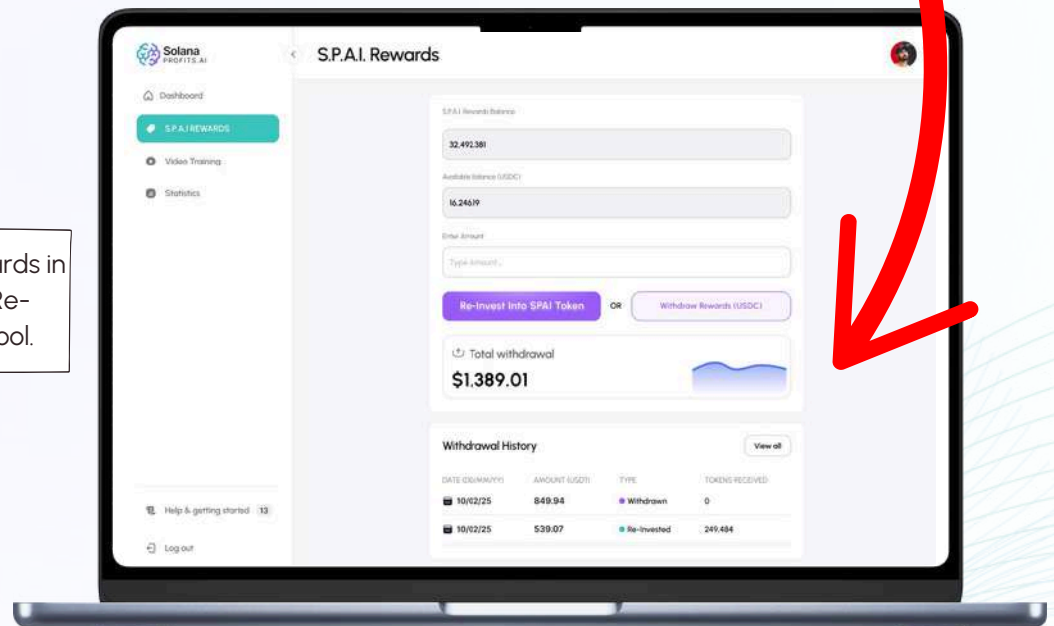

SPAI Tool will be **exclusively used** inside this dashboard only. 80% of ALL Revenue coming in will then be distributed to members who purchased SPAI Token from now until 26 June 2025.

On 27 June 2025 your shares (SPAI Rewards) will be calculated according to ratio of SPAI Token compared to total sales.

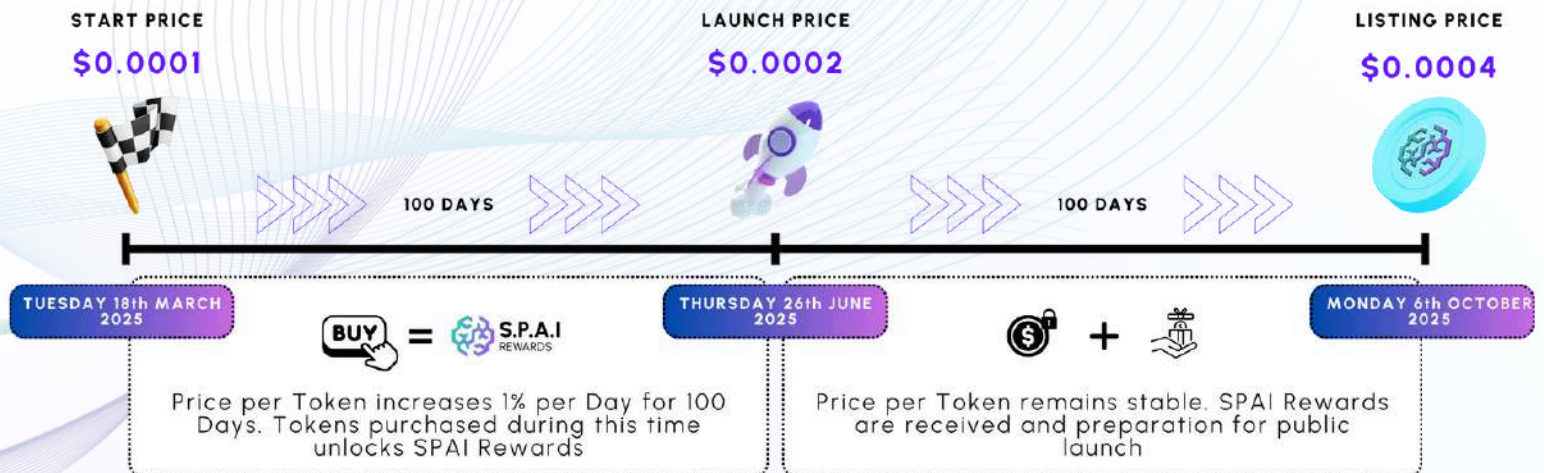

S.P.A.I. Rewards Withdrawal

You can withdraw your SPAI Rewards in USDC on a daily basis or you can Re-Invest into SPAI Token to use the tool.

COMMISSION STRUCTURE

Commission Explained

There is a famous theory that states:

"You are 7 handshakes away from anyone in the World".

This means that you know someone, who knows someone, who knows someone, who knows someone, who knows someone, who knows someone...and that last "someone" is every single person alive on this Earth right know.

It's **the power** of a Multi-Tier Commission Structure.

Back when the Founder was an Affiliate Marketer, he would earn commission only on products sold.

Now, you have the ability to share SolanaProfits.ai to the World and you may be surprised at how much USDT you earn in commission.

Level 1 is referred to as a "Direct Referral".

When you share your link and someone registers and then purchases, you will earn 15% of the revenue as commission.

This is paid in USDT and you can withdraw at any time.

It doesn't end there however!

If THAT person uses their referral link to refer someone to SolanaProfits.ai and *they* purchase, this is referred to as a **Level 2 Purchase**.

You will also earn commission on that too!

Remember, you are 7 handshakes away from every person on the Planet.

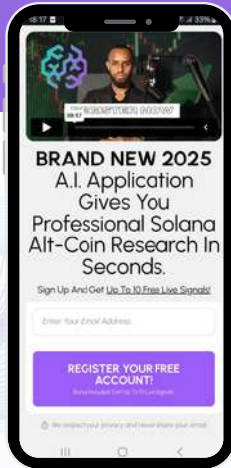

This commission structure offers you USDT from being 10 handshakes a way.

It's **extremely powerful, extremely profitable**, and when the Founder first got introduced to this commission structure, he felt it was necessary to reward you with this structure.

LEVEL	COMMISSION
1	15%
2	8%
3	5%
4	4%
5	3%
6	1%
7	1%
8	1%
9	1%
10	1%
